Balance your mind, body and soul in the Coral Beach Gem Spa Fiesta Americana Coral Beach, located in Cancun's Hotel Zone. Natural textures of wood, black granite, sand, marble, onyx and Venetian mosaic give the spa a truly luxurious feel. The spa offers separate areas for men and women, and areas where you can share the experience with your partner or friends as well. This is the only spa in Latin America that features a complete 10-step hydrotherapy program starting in the sensations pool and progressing through an aromatherapy steam, a vigorous shower, clay steam room, ice room, sauna, rain shower, Jacuzzi, polar pool and foot bath. Various other spa treatments and services are available as well.
